

Group Members:

Anubhav Jaiswal
Prayash Das

Preferred Communication Methods:

Whatsapp, Email - For Instructions/Plans
Google Drive/Github to share files

Check-in Frequency:

3 times in a week.

Check-in Tasks:

Check for previous task completions.
If Done, Assign New tasks.
Discuss ownership of modules/functions
Set Deadlines for completions of said tasks.

Backlog Storage Strategy:

Implement the basic features asked in the project document
Any backlogs get first priority to solutions.

Meeting the Deadline Strategy:

Ensure to sit to solve problems within 12 hours of the deadline.
Or pull an all nighter.
To be managed independently by both members.
Any help requested should take priority after completing the helper's tasks first.

Missed Deadline Recovery Strategy:

To be addressed as the highest priority.
Both members need to re-allocate time to complete the targeted tasks.

Project Deliverable Submission Process:

Project Submitted by Anubhav Jaiswal

Project Private Access to be reset to public as instructed by the project document.

Both Memembers need to be aware of the above deadlines

Instructor Support Expectations:

To mitigate any conflicts between project members.
